ALBION'S SCARE.

The Dynamite Explosion at London Simply a Warning to English Rulers.

Active Measures Taken to Discover the Perpetrators of the Outrage.

Agitators on This Side of the Atlantic Openly Rejoicing Over the Affair.

Views of Prominent Irishmen Touching This New and Dreaded Kind of Warfare.

As for the Explosion Itself It Did \$20,000 Damage and Is a Small Mystery.

LONDON, March 17.—There was an enormous crowd gathered all day at the scene of the explosion in the local government board offices in Westminster. The vessel which contained the explosive material was placed in the cellar of the local government board offices. Later, and closer inspection shows that the explosion occurred from the outside of the building.

CHARGED TO THE IRISH EXTREMISTS. The Times says: "If the Irish extremists are really going to reply with dynamite to any measure they disapprove of, it is certain that the day of remedial legislation is over."

A MISTAKE.

The Pall Mall Gazette says: In many of the maps of London the local government board office is marked as the "home office." It is thought the attempt to blow up the former building was made with the idea that it was the latter, Sir William Harcourt, the home secretary, being very obnoxious to the Fenians.

A REWARD.

The government offers a reward of \$1,000 for the discovery of the authors of the explosion. The reward applied to the attempt on The Times office. Anyone, not the actual culprit, giving information of the origin of the explosion, will be pardoned. It is stated the magistrates have awarded a summing of evidence connected with O'Donnovan Rossa with the particular understanding he would be pardoned.

THE SKIRMISHING PEND.

Sir Charles Dilke, president of the local government board, who he who was not upon himself or the officials of his department. The oil-drivers intended to cause widespread destruction of property. He is of the opinion that the plot originated with the managers of the skirmishing, from the fact that Harcourt and other high officials believed the plot was directed against the criminal-inquiry department, which is adjacent to the offices of the local government board. The guards are doubled at the magazines and military centers, and Dublin detectives are assisting the London police.

THE CONSPIRATORS.

A key has been obtained to important cipher documents. An informer in connection with the Phoenix park murders will testify at the Belfast assizes.

The Excitement Intense.

LONDON, March 17.—The excitement is intense, the neighborhood presenting the appearance of a bombardment at the spot where the bomb was placed.

The destruction of masonry was very great. The coping round the window balustrades in front was hurled into the middle of Charles street, which runs on the south side of the building, where it lay a crumpling pile of mass. The room adjoining was cracked to pieces, and further broken. The castings throughout the whole side of the block were blown out, and the blinds and curtains torn to shreds.

The damage in the surrounding locality is chiefly confined to broken windows, which completely pitted the glass, with a loss of glass for the sum of two hundred yards.

The police rigidly guard the entrance to Charles street and bar the public from the approach.

The whole scene and the state of public feeling recalls to mind the Clerkenwell outrage.

Energetic Measures Demanded.

BERLIN, March 17.—The press is utterly dismayed at the Westminster explosion and advises energetic measures.

Approved by Sheridan.

NEW YORK, March 17.—Patrick J. Sheridan was found at the office of The Irish World. He disclaimed all knowledge of the authors of the explosion, but he did not doubt that they were connected with some Irish organization. When asked if he sympathized with such methods of political agitation, he said, "no, but I do sympathize with the Irish people who try to give back blow for blow." I do not wonder in the least that the Irish people should turn upon their oppressors and have recourse to these desperate means of settling their matters, in fact, if I am surprised at all, it is that they did not do it sooner.

The police are anxious to find the author of the explosion, and I am sure they will find him.

Michigan Legislature.

SPRINGFIELD, March 17.—In the senate, Mr. Evans presented a bill to permit insurance companies of \$100,000 capital to do business in Chicago.

There is a disposition among the leading politicians of the state to make a law.

Mr. Campbell called up a bill to authorize the formation of companies in the detection of horse-theives, which was read a third time and passed.

After an executive session the senate re-

sumed consideration of the railroad bridge.

The guards are doubled at the magazines and military centers, and Dublin detectives are assisting the London police.

NEW YORK, March 17.—Captain Alfred Ayer, the high-schooled of Gov. Johnstone in the war of the Truce, was interviewed.

"It is your opinion that the explosion in the government offices at Whitehall is rightfully attributed to the Fenians?"

"I believe the explosion was undoubtedly the work of Fenian Irregulars, who, I think, by what you say, are now in Ireland. I believe that they only had a policy toward Ireland is to invite the action of Pharaoh after the slaying of the first-born throughout the land of Egypt. The ultimate of these leaders who is now at the head of the Irish people is, as was that of Moses, 'let my people go.'

"Then you have not much faith in the efficacy of Mr. Gladstone's measures for improving the condition of Ireland?"

"Irish Irregulars reflect all English plans for 'Irish' troubles. Ireland's quarrel with England is irreconcilable, except on the condition of England's withdrawal from Ireland. I think you are right in your opinion that the Fenians are everywh-

A week ago Mr. Todd took charge of his run, on the Madison & Portage branch, as usual. Not feeling well the next day he remained at home in Madison and on Wednesday morning, after suffering so brief an attack of diphtheria, passed quietly away. Mr. Todd was 54 years and 6 months old. He leaves a wife and two children. In his earlier years he followed the occupation of a farmer near Waukesha, and nearly thirty years ago went into the employ of the Milwaukee & LaCrosse railway, the present Chicago, Milwaukee & St. Paul road, and has ever since, with the exception of a few years' interval, been serving in the capacity of passenger conductor on some of the St. Paul company's lines. He was a gentleman widely known among railway people and the traveling public; many are the words of praise spoken for him by every acquaintance, he ever conducting himself as a pleasant, accommodating man and thorough gentleman. His residence was on the south side in this city for a number of years before removing to Madison."

THE MASQUERADE.

—The masquerade of the Bower City girls at their armory last evening was a grand affair, the large armory being crowded with at least one hundred and fifty couples, most of whom appeared in masks. All the arrangements were completed; every thing moved along in perfect order, and all seemed to enjoy the evening in the very happiest spirit. Some of the ladies wore very rich and handsome dresses, and were well disguised, but there was a general lack of any real assumed characters. The general object of the participants appeared to be to disguise their personal appearance, in which they succeeded well. The music was furnished by Anderson's orchestra, and the supper by Messrs. Parker & Evanson, which was of the best. There was considerable amusement at eleven o'clock when all raised their masks. Altogether the annual masquerade was a grand success.

St. Patrick's Day in Janesville.

Burkhard Brahm, charged with shooting Henry Stuessy, near Monroe, in November last, was convicted at Monroe, yesterday, of murder in the first degree. This case is in some respects similar to the Mack case, Brahm being the Dickerson. He was the hired man who became too intimate with the farmer's wife, and who conspired with her to kill the husband, she being the instigator. He is an ordinary looking German youth of 22, with a wife and child in Germany, whom he left two years ago; and she is a plain looking woman of 30, with six children. Both made written confessions in German of the crime, he being a remarkably able defendant, covering fifteen legal-cap pages. After detailing attempts to kill St. Patrick, he was asleep without success—he having refused to drink the coffee, and the chloroform only making him sick. He acknowledges that he consented after much hesitation, to try again and kill the husband himself. The act was done, while both were out squirrel hunting together, the unsuspected victim walking by his side with one hand in his pocket; he says:

"Now, I said to him if it be true that he had said that I had spoiled (made bally) his young horse. He answered, yes. Then I said you are a lying man, and you will say it is no more what you have said. At the same time when I said 'what you have said,' the bullet pierced into his head and he fell, but I quickly gave him a second bullet and dropped the gun and ran off home."

A clearer confession of cold-blooded murder can hardly be imagined, and the defense was merely that Mrs. Stuessy incited him to it, in an attempt to show that Stuessy had tried to shoot Brahm.

Mrs. Stuessy, testifying for Brahm, said: "I knew Brahm had the gun. Yes, I told him to shoot him. Yes; I coaxed him to do it."

She has pled guilty; but has withdrawn the plea on the advice of her counsel, who will attempt to show that she is insane. She is *enfonce*, and for that reason her trial has been postponed until next fall.
